

ABSTRACT

[0001] The present invention relates to cementing operations, and more particularly to improved cement dispersants for cement compositions and methods of cementing. In one embodiment, the present invention provides a method of cementing comprising the steps of: providing a cement composition comprising a cement, and a dispersant composition, the dispersant composition comprising a surfactant and a co-surfactant; placing the cement composition in a desired location; and allowing the cement composition to set.
